The program comes with over 2000 predefined shapes and plenty of text fonts Both text and images (shapes) are called objects inside the user interface.. Of course, even if you select one of the templates, you can modify it to better suit your company or website requirements.. Each object's size, position, and color can be modified You can also add a shadow, an outline, and a gradient effect to any object.. You can edit the logo just by using the mouse I really liked the logos that I was able to create with this software. [Stevie Wonder I Wish Instrumental Download](#)

Later, I realized that I should have pressed CTRL+R, or I should have accessed the Object menu to remove an item.. If you want to access the properties of an item easily, I suggest you try clicking the 'Window' menu.. Drawbacks / flaws:In conclusion: AAA Logo comes with a lot of templates, shapes, and fonts, which you can use to create a professional looking logo.. I tried pressing the Delete key to remove an object from my logo, but this didn't work..
